

music player

PDP1M16

Tempo:

A) values in parts (data tape) if present supersede default = 252 octal

Multiplied by

B) contents of loc. 12 octal (default 100000 octal)

Multiplied by

C) value in TW (if valid: 40 to 1377 octal), divided by 252 octal

Smaller values are faster (proportional to note duration)
